

Art

Art at Royal Kings School is an exploration of the senses. Children's talents are valued and nurtured in a warm and inviting environment. Extra-curricular activities have included Ceramics, Recycled Art, Painting and Drawing, Batik and Crafts; the door is always open to those keen enough for even more!

The key elements of art (Line, Form, Space, Shape, Texture, Tone and Colour) are visited in a wide range of ways throughout the school, in exciting projects such as papier-mâché parrots, ceramic bookends, Picasso portraits and printed books illustrated by our Year 4s, to name but a few. Specialist techniques are used regularly including printmaking, batik, acrylic painting, metal embossing and digital image-making.

Whether it is designs for the School Play or making exciting displays around the school, the children are at the heart of our creativity, showing ambition is always in abundance.
